

GZMB SEMINAR SERIES

28.10 - 25.11 **Fridays at 12:15**

Schwann-Schleiden Seminar Room
(-1.101/2)

Join us for pizza, drinks, and interesting
scientific discussions!

OCTOBER
28

Debra Knorr

Heinrich Lab

*Neuroprotection in human cells: functions of an
evolutionary ancient cytokine receptor*

NOVEMBER
4

Fabian von Pappenheim

Tittmann Lab

*High-resolution crystallography as a tool in
enzymology – still indispensable*

NOVEMBER
11

Chad Grabner

Moser Lab

TBA

NOVEMBER
18

Celeste Giansanti

Dobbelstein Lab

*A tumor suppressor interfering with DNA replication:
p53 talking to PARP1*

NOVEMBER
25

Dominik Mühlen

Günesdogan Lab

Inheritance of epigenetic information during DNA replication
