

# Promising FUTURES

CSL Plasma

CSL Plasma is one of the world's largest human plasma companies for the production of highly effective coagulation and immunoglobulin preparations.

As part of the CSL Behring Group, one of the world's largest providers of life-saving biotherapeutics, CSL Plasma is responsible for the collection, storage and testing of plasma. Not only quality, safety and state-of-the-art technology are important for a smooth process, but above all our qualified and motivated employees, who contribute to the successful implementation of the set goals.

For the Quality Assurance Department CSL Plasma in Göttingen  
we are looking for Specialist (m/f/d)  
with language skills in German, English and Italian (business fluent)  
(initially limited to 2 years)

## Your activities:

Support and monitoring of our plasma suppliers in Europe, Middle East and Africa (EMEA).  
Contact person for all suppliers with regard to quality-related inquiries.  
Written correspondence inside and outside the CSL organization.  
Collection and processing of data for the European Regulatory Authority.  
Recording and assessment of change/ deviation notifications/complaints in the electronic quality management system.  
Carrying out risk analyses in connection with change/ deviation reports as well as complaints.  
Conducting effectiveness tests of implemented corrective and preventive measures.  
Collection and preparation of quality-relevant key indicators for supplier evaluation.  
Collaborate with different departments within the global CSL organization.

## Your profile:

Bachelor's degree in Business Administration or Natural Sciences  
Very good verbal and written expression in German, English and Italian  
High quality awareness as a prerequisite for GxP-compliant work  
Analytical and clear-sighted intellectual power.  
Working independently  
Strong communication and motivation skills as well as flexibility  
Team player and good manners  
Very good computer skills required

Your benefits:

Varied, challenging and responsible area of assignment.

Pleasant working atmosphere in an international, dynamic and high-performance team;

Remote working possible

Opportunities for personal and professional development.

An attractive salary with an additional pension scheme.
